

PRENATAL LACTATION APPOINTMENTS

Haywood Women's is offering a one-on-one appointment with our Lactation Consultants. This 30-minute appointment will give a brief overview of the basics of breastfeeding, helpful websites you may review at home, as well as answer your specific questions about breastfeeding your baby.

We recommend you schedule this appointment during your second trimester.

These appointments are typically offered on Thursday mornings. If you need another time, we are happy to accommodate your schedule.

Please see the receptionist to set up your appointment or call 828.452.5042
